KELEBOGILE SEEPE

JUNIOR SOFTWARE DEVELOPER

SUMMARY

I am a fast learner and passionate about acquiring knowledge, especially in new and dynamic environments. As a dedicated and hardworking individual, I thrive under pressure and am committed to going the extra mile—something that the software development field often demands.

With two years of hands-on experience, I've developed a strong foundation in coding and problem-solving. I enjoy the process of building software solutions that address real-world challenges. I'm also enthusiastic about collaborating with diverse teams and contributing to innovative projects that drive meaningful impact in the tech space.

WORK EXPERIENCE

- **Surveya PTY (LTD)** 2024 - PRESENT
